- 00:04

  Certain E classrooms are equipped

- 00:06

  with a logic tech rally.

- 00:08

  Or Logitech group USB camera and MIC system.

- 00:13

  These work with any of the popular

- 00:17

  video conferencing platforms

- 00:18

  such as Microsoft Teams, Zoom,

- 00:21

  Webex or LMS virtual classroom.

- 00:24

  The logic tech equipment connects to your

- 00:27

  computer through a single USB cable.

- 00:30

  Locate the USB cable coming from the

- 00:33

  podium labeled USB Cam MIC and connect

- 00:36

  this to a USB port on your laptop.

- 00:39

  To use the logic system with

- 00:42

  the podium computer,

- 00:43

  insert the USB Cam mic cable into the

- 00:46

  USB port mounted on the classroom podium.

- 00:50

  Within your video conferencing software,

- 00:53

  adjust the mic and speaker

- 00:55

  settings to lodge a rally audio.

- 00:58

  When using a rally system or lodge a

- 01:01

  group speakerphone for the Logitech

- 01:04

  group system adjusts the camera settings.

- 01:07

  Two larger rally camera or larger group

- 01:11

  camera and now the remote participants

- 01:14

  will see and hear the class through

- 01:17

  the installed Logitech camera and Mic system.

- 01:21

  Users will have to screen share

- 01:24

  within their video conferencing

- 01:25

  platform to show content or they

- 01:27

  could position the camera to include

- 01:29

  the screens within the classroom.

- 01:31

  Adjustments can be made to the

- 01:34

  camera position by using the remote

- 01:36

  found in the classroom podium.

- 01:39

  Thank you for watching.
